

Please dont force KLOVE radio station off the air. It is not a LPFM. I dont understand all of this FCC stuff but I know this radio station is making a difference in peoples lives. In my area Temple Texas I already lost a great christian station years ago and this station after years of waiting is now being threatened. We christians just dont have any other stations to listen to. Please help keep this station broadcasting in all areas of the US. Listen to this station a while and I know you will get Blessed also.  
God Bless! Thanks, Angie Chandler
